Cold DM (LinkedIn / Telegram)

Hi [Name], I keep seeing [business type] lose hours to [repetitive task]. I package it as a done-for-you automation in 48h. Want a 3-line plan for your setup? No cost to look.

Follow-up (day 3)

Hey [Name] - following up once. If [task] is still on your list, I can show the exact flow I'd build. 10 min, your call.

Discovery question set

1. What does [task] look like today?
2. How many times/week?
3. What breaks when it's late?
4. If it ran itself, what would you do with the time?

Proposal one-liner

I will build [automation] that does [trigger] -> [action] automatically, with error alerts. Delivered in [timeframe], \$ [price], paid in crypto.

Objection: too expensive

Fair. The build pays for itself in [N] weeks from the hours it saves. If you want, I'll start with just [cheapest module] at [lower price].

Referral ask

Glad it worked. If another [business type] owner comes to mind, an intro means a lot - I treat referrals like gold.

Re-engagement

It's been a bit. I now offer [new tier] that solves the exact thing you mentioned. One slot open this month - want the short version?
