

Prompt Engineering Field Manual

Para-Inc // Copy-paste templates that work with GPT, Claude, Llama, and local models.

Role + Task + Constraint

You are a senior {ROLE}. Do {TASK}. Constraints: under {N} words, no fluff, output as markdown.

Code review

Review this diff for: security bugs, edge cases, unclear naming. Output a table: issue | severity | fix. Be blunt.

Turn notes into tickets

Convert the following meeting notes into Jira-ready tickets. Each: title (<=60 chars), acceptance criteria (bullets), estimate (S/M/L).

Extract structured data

From the text below, return ONLY valid JSON: {name, company, intent, next_step}. If unknown, use null.

Agent loop

You have tools: search, run, write. Repeat: think -> act -> observe until the goal is met. Stop when done and give a one-line result.

Make it less AI

Rewrite the text to sound like a human expert wrote it. Cut hedging ('it's important to note'), cut lists of three, vary sentence length.
